Subject: Microsoft Settlement

I have worked in the Internet field since 1992 and found Microsoft on all occasions that I have worked with them, in my personal experience, to be unabashed bullies.

I have seen nothing to indicate that this has changed, and believe that the remedies proposed will do nothing to prevent this behaviour in future. I believe that the remedies proposed by the DOJ are completely inadequate, and that the remedies proposed b

y California, Florida, Iowa, Kansas, Massachusetts, Minnesota, Utah, West Virginia, and the District of Columbia are barely adequate. The dissenting states are closer, but the Judge should strengthen the remedy to ensure beyond a reasonable doubt the safety of innovation and commerce in the United States.

regards,
Andrew Reilly
